DANCE FOR DIVERSITY | WWW.JEEYEONGDANCE.COM

PROJECT BACKGROUND

Dance For Diversity (DFD) is an annual screendance project series that is made explicitly for Choreographers of Color to elevate their unique voices and stories through dance and performance work. DFD provides a platform for Choreographers of Color to create an original solo piece on film that reflects their story of identity and expresses personal experiences that address racial stereotypes, discrimination, and assumptions.

Of 21 applicants, 4 Choreographers of Color and 4 Cinematographers were selected for the 2023 film series. In pairs, their screendance films will reach audiences local to Greater-Milwaukee and nationwide.
